

Application Task

Supporter Liaison

The following tasks are examples of the types of enquiries the Supporter Services team receives. Completing this task will help us understand how you would approach our everyday enquiries

Task: Enquiries

OVERVIEW:	The messages below are true representations (albeit a very small number) of enquiries that the Supporter Services team can receive on any given day. For this task, imagine you are the Supporter Liaison and have received the following three email enquiries (among many others!). Please draft an email response to each enquiry.
ENQUIRY 1:	I'm an ethical meat eater and don't understand why you'd want to stop the trade in kangaroo meat. Kangaroos are in plague proportions and need to be controlled so why waste their meat? Eating kangaroos is far more ethical than eating animals from factory farms.
ENQUIRY 2:	I recently saw a news story about how pigs are killed and was horrified. Surely this can't be true? Can you please explain to me how pigs are killed for food in Australia and let me know the pork brands that use more humane methods? I want to make sure I'm not paying for cruelty!
ENQUIRY 3:	I was told the Labor Government had banned live export but this doesn't seem to be the case. I see trucks full of animals – cattle and sheep – heading to ports all the time. Did they backtrack on their promise? What can I do to make sure live export stops once and for all?
ENQUIRY 4:	I would love to be vegan, but I just don't think it's realistic. I lead a very busy life and don't have the time to look for fancy, plant-based ingredients and recipes. I think it's good enough that I've cut down the amount of meat I eat and try to buy free range eggs when I can. Don't you think you should be advocating for that rather than a fully vegan lifestyle?

Our vision is a world where kindness, compassion
and respect extend to *all* living beings.
